

Sun City West Fire District Celebrates Fire Corps Volunteers

One of the greatest gifts we can share is our time and 35 individuals in Sun City West have bestowed that gift on the fire district. In honor of Volunteer Appreciation Week, the Fire District of Sun City West held their annual Appreciation Breakfast on Friday, April 16, 2010, to celebrate the accomplishments and thank district volunteers for an outstanding job in 2009. Fire Corps members provide invaluable services to the community like blood pressure screenings, lock box installations and maintenance, smoke alarm checks, installations, and battery changes, injury prevention presentations, fire extinguisher trainings, and administration assistance, to name a few. During 2009, Fire Corps members volunteered approximately 1669 hours with the Fire District providing an answer to nonemergency calls for service which qualified the group for a gold President's Volunteer Service Award.
