

North County Fire & Medical District Information and Notification System

Frequently Asked Questions

What is the District Information and Notification System?

With this System, email messages can be sent within minutes to registered District property owners with specific information about important District matters.

How does Fire District Information and Notification System work?

The notification System enables the District, with a few clicks of a computer mouse, to communicate with District residents and property owners anywhere, anytime, via your registered email address.

What types of messages will be sent using the Fire District Information and Notification System?

Any message regarding the safety or welfare of the community will be disseminated using the Information and Notification System. The System may also be used for routine community notifications including information about District-sponsored events and services.

I registered my contact information into the System, but I need to update my information. How can I do this?

Please visit the District's website and re-register for the District Information and Notification System using your updated contact information.

Will my personal information be shared with any third party organizations?

To protect the privacy of your personal information, the District maintains strict confidentiality of all of your information. Your personal information will not be shared with any third party organizations.

I am not a resident of the North County Fire & Medical District; can I register my contact information into the System?

At this time the System accepts registration information from North County Fire & Medical District residents and property owners only.
